</div>

</body>
</html>

```

Output:

The screenshot shows a web browser window with a form titled "bs.html". The form is styled with a light gray background and rounded corners. It contains the following fields and controls:

- First Name:** A text input field with a user icon on the left.
- Last Name:** A text input field with a user icon on the left.
- E-Mail:** A text input field with an envelope icon on the left.
- Phone#:** A text input field with a telephone icon on the left, containing the value "(845)555-1212".
- Address:** A text input field with a house icon on the left.
- City:** A text input field with a city icon on the left.
- State:** A dropdown menu with the text "Please select your state".
- Do you have your hosting?:** Two radio buttons labeled "Yes" and "No".
- Project Description:** A text area with a pencil icon on the left.
- Send:** An orange button with a paper plane icon.

The browser's address bar shows the file path "C:/Users/Sarvesh/Desktop/bs.html". The taskbar at the bottom displays the Windows logo, search bar, and various application icons, including Edge, File Explorer, and Microsoft Office applications. The system tray shows the date and time as "18-07-2024 18:20".
